Learning more about honey bees and other local pollinators may provide you with a better understanding about your yard & gardens, the decisions you make towards pests, weeds, and why we are trained that a lawn must be just grass. Honey bees offer so many benefits. Come and learn more. Bring your questions, and we can even offer suggestions on how to get started.

*This presentation is free to the public.*

**Discover answers to many of your beekeeping  
and pollinator questions.**

Speaker: Jodi Turner, Experienced Beekeeper
